

FIG. 1

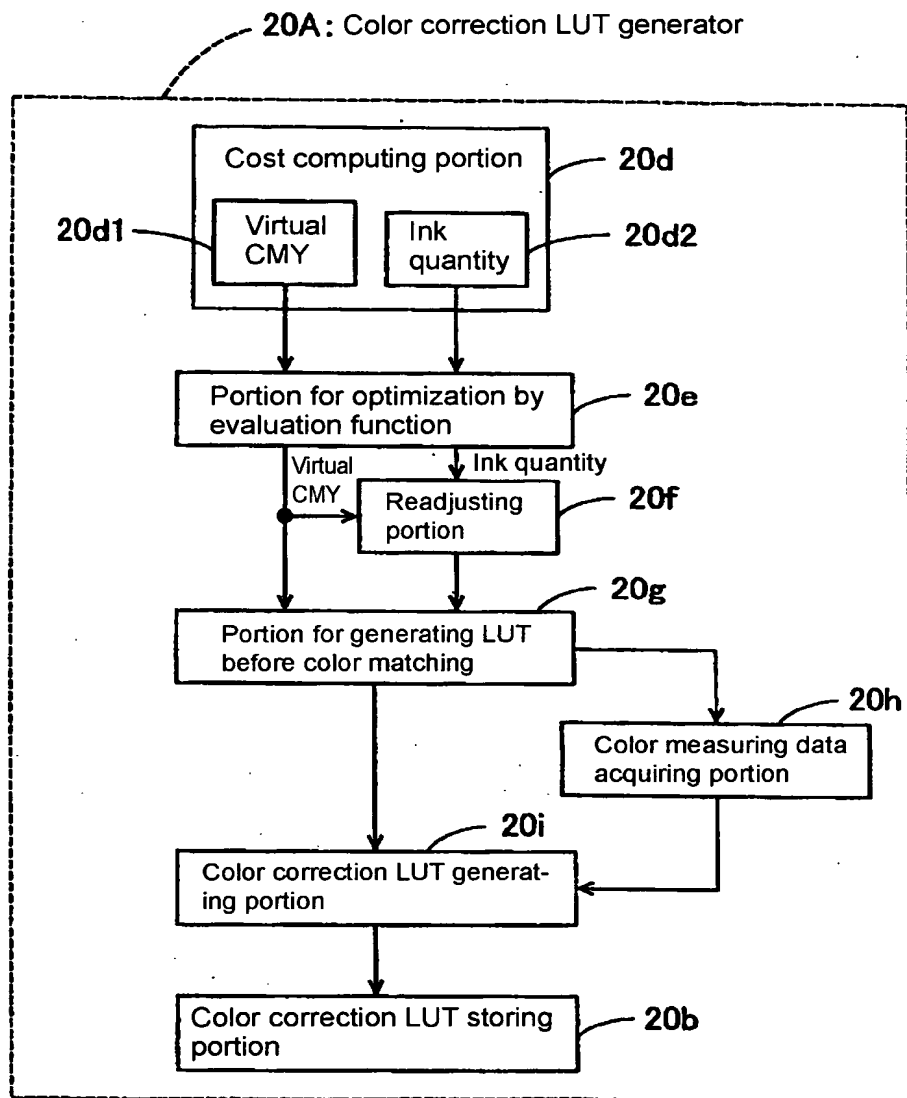

FIG. 2

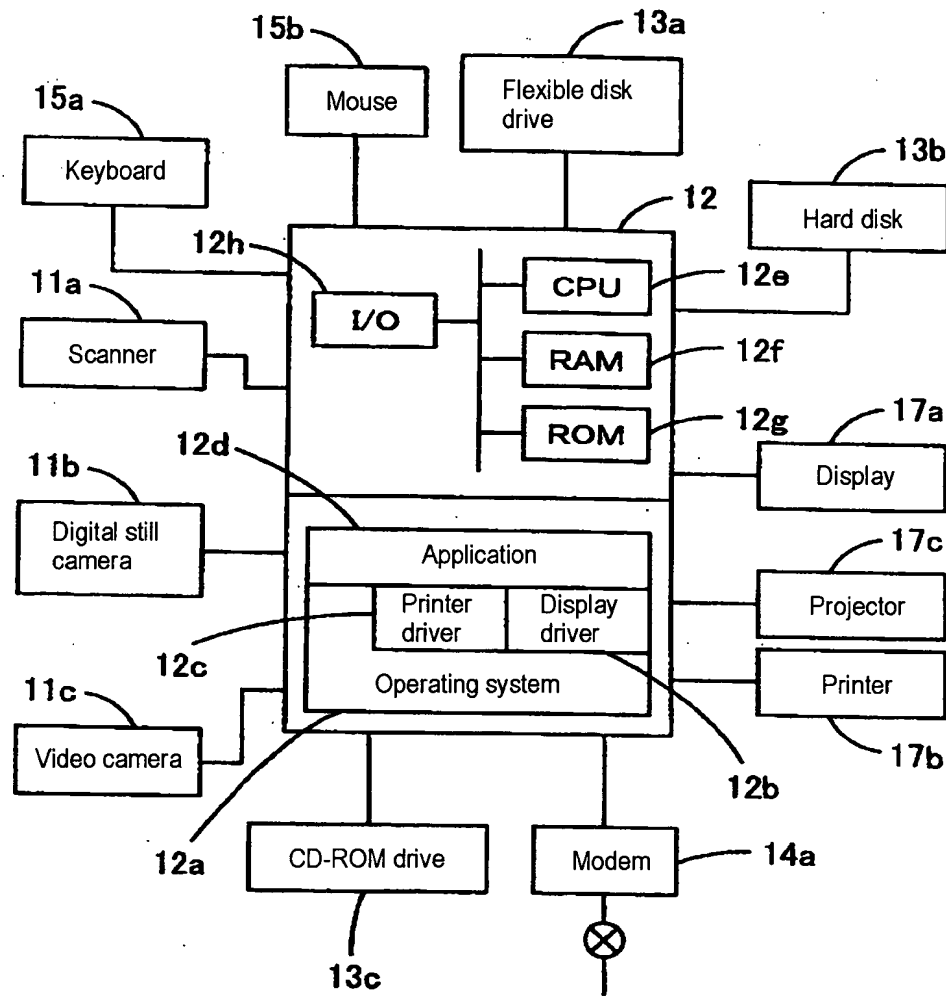

FIG. 3

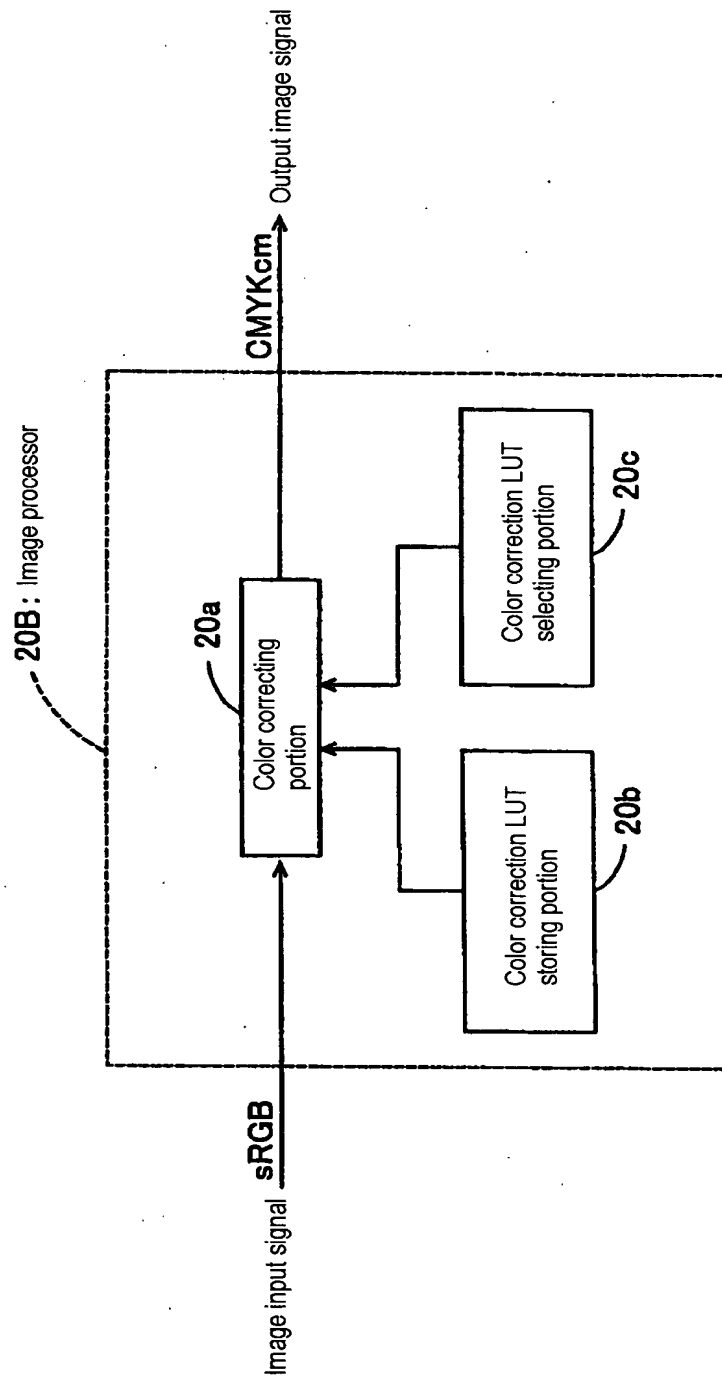

FIG. 4

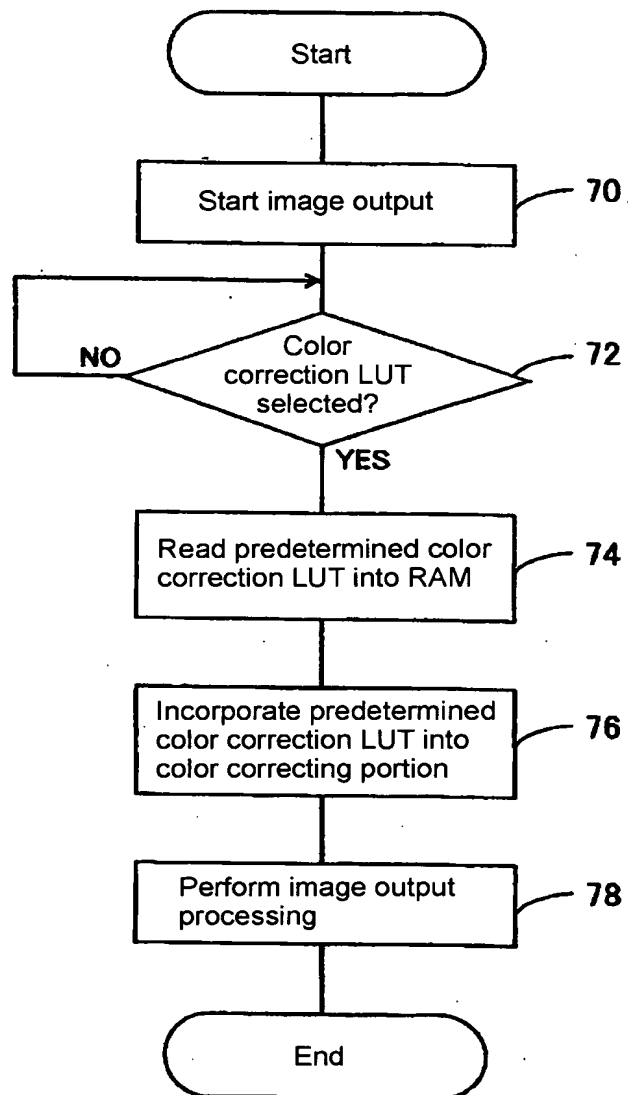

FIG. 5

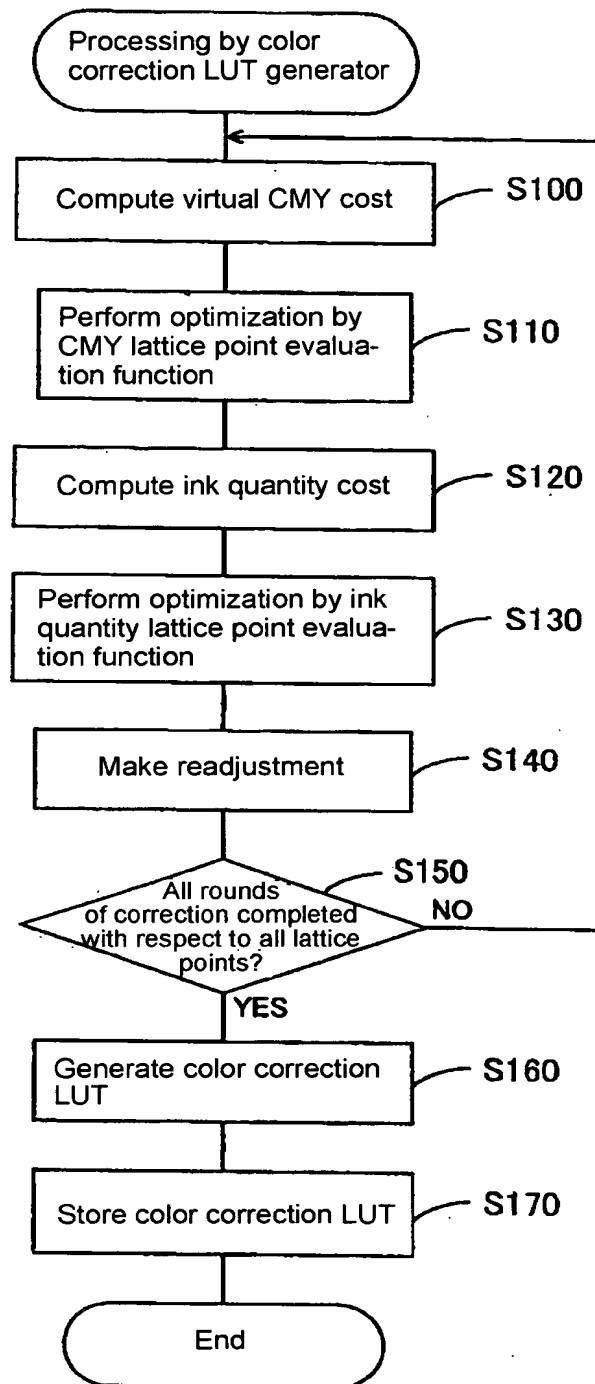

FIG. 6

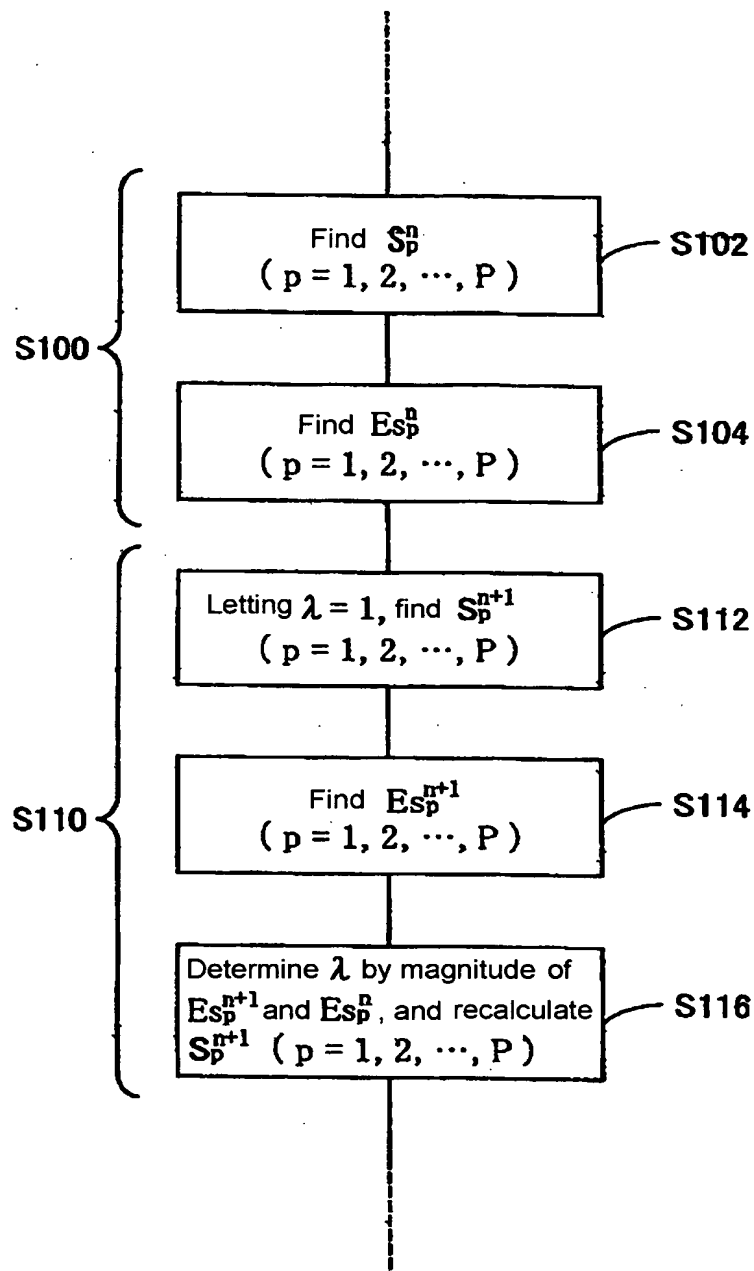

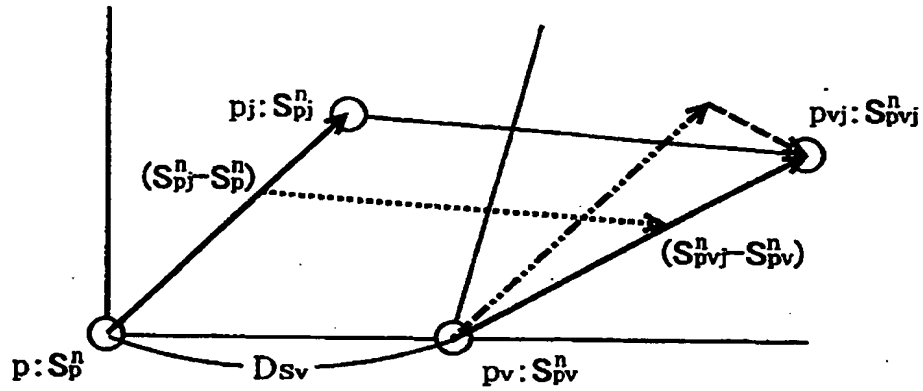

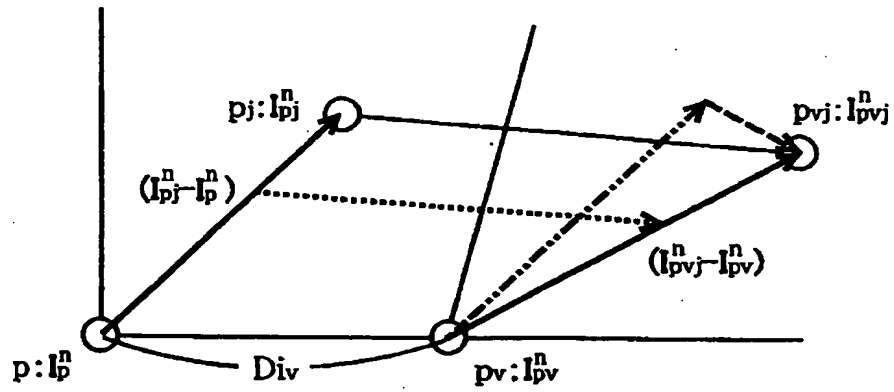

FIG. 7

- Differential vector between directions of reference
- - - - -→ Parallel translation of differential vector before transition
-→ Transition of differential vector
- - - - -→ Variation in differential vector between before transition and after transition
- Indicates adjacency of lattice points
- Indicates lattice point position

FIG. 8

- Differential vector between directions of reference
- - - - -> Parallel translation of differential vector before transition
-> Transition of differential vector
- - - - -> Variation in differential vector between before transition and after transition
- Indicates adjacency of lattice points
- Indicates lattice point position

FIG. 9
